January 10, 2012

Dear Special Donors to the Guatemala Children's Mission,

I'm writing to update you on progress against our goal of raising \$70,000 in December to bring our Agua Viva reserve account back to the level needed to move forward with 2012 plans. As shared in previous communications, a modest reserve has proven essential to the smooth operation of the home and school.

With much gratitude, I can report that because the Lord touched the hearts of many individuals like you, we were able to meet our goal. Funds in reserve can now support a few months of operation at the home and school, allowing us to implement plans for 2012. Of course, we continue to rely on the monthly contributions of our faithful supporters for the life blood of the Agua Viva operation.

Please join me in asking the Lord to continue to provide for the financial needs of the Agua Viva Home and School in 2012. Our operating expenses will be approximately \$35,000 per month, not including capital expenditures such as vehicle replacement or unanticipated costs such as roof repairs due to storm damage.

May the Lord continue to use you to further His Kingdom in 2012!

With much gratitude,

Christopher C. Gault
President, Guatemala Children's Mission
